App Overview

StudyFlow organises academic tasks into a simple, clear and actionable experience.

StudyFlow is a mobile app that brings assignments, tests, quizzes, exams and deadlines into one place, so students always know what is pending, what is urgent and what to do next.

THE PROBLEM

Assignments, quizzes, projects and deadlines are scattered across different platforms and chats. When several deadlines arrive together, it is hard to decide what to do first.

THE SOLUTION

One organised space with a clear home screen, task lists, a calendar, subject tracking and progress, designed for school, college and university students.

KEY UX FEATURE

Start Here / Next Action

Tells the student what to work on next, based on three signals.

Urgency | Deadline | Priority

APP DETAILS

APP NAME
StudyFlow

TAGLINE
Plan Better

CONCEPT
Academic Command Center

PLATFORM
Mobile app

AUDIENCE
School, college and university students

MAIN SECTIONS
Home, Tasks, Calendar, Subjects, Profile

> *"I'm motivated, I just need a better way to organize everything."*

About

Saliha is a motivated and dedicated student who takes her studies seriously. However, her assignments, quizzes, projects and deadlines are scattered across different platforms and chats. When multiple deadlines come together, it becomes difficult for her to decide what to do first.

Goals

- See her complete academic workload in one place
- Never miss deadlines
- Prioritize important tasks
- Break large assignments into smaller steps
- Reduce last-minute work
- Track her progress clearly

Frustrations

- Information is scattered across different platforms
- Multiple deadlines create pressure
- Procrastination and difficulty starting tasks
- "What should I do first?" confusion
- Important instructions/files get lost easily
- Panic close to deadlines

Technology Comfort

- Uses smartphone daily
- Familiar with university LMS/apps
- Uses WhatsApp, Google Drive, Calendar etc.
- Comfortable learning new apps if the interface is simple and easy to use

Main Need

"I need a place where I can instantly see what's pending in my studies, what's urgent and what I should do next."

Core Insight

She doesn't need another to-do list.
She needs clarity.

CORE INSIGHT

She doesn't need another to-do list.

She needs clarity.

DESIGN GOALS

- One place for all academic work
- Show what is urgent
- Show what to do next
- Break work into steps

Empathy Map

Putting ourselves in the user's shoes.

Empathy Map

Putting ourselves in the user's shoes.

SAYS

- "Mujhe yaad hi nahi raha assignment kab due hai."
- "Har subject ka kaam alag jagah pada hua hai."
- "Main baad mein kar lungi."
- "Mujhe bas koi clear plan chahiye."

THINKS

- *"Mere paas itna kaam hai, pehle kya karun?"*
- *"Kahin koi important deadline miss na ho jaye."*
- *"Agar main aaj start karun to last-minute stress nahi hoga."*
- *"Kaash mujhe ek jagah sab kuch dikh jaye."*

Saliha Sheikh

20 • University Student

DOES

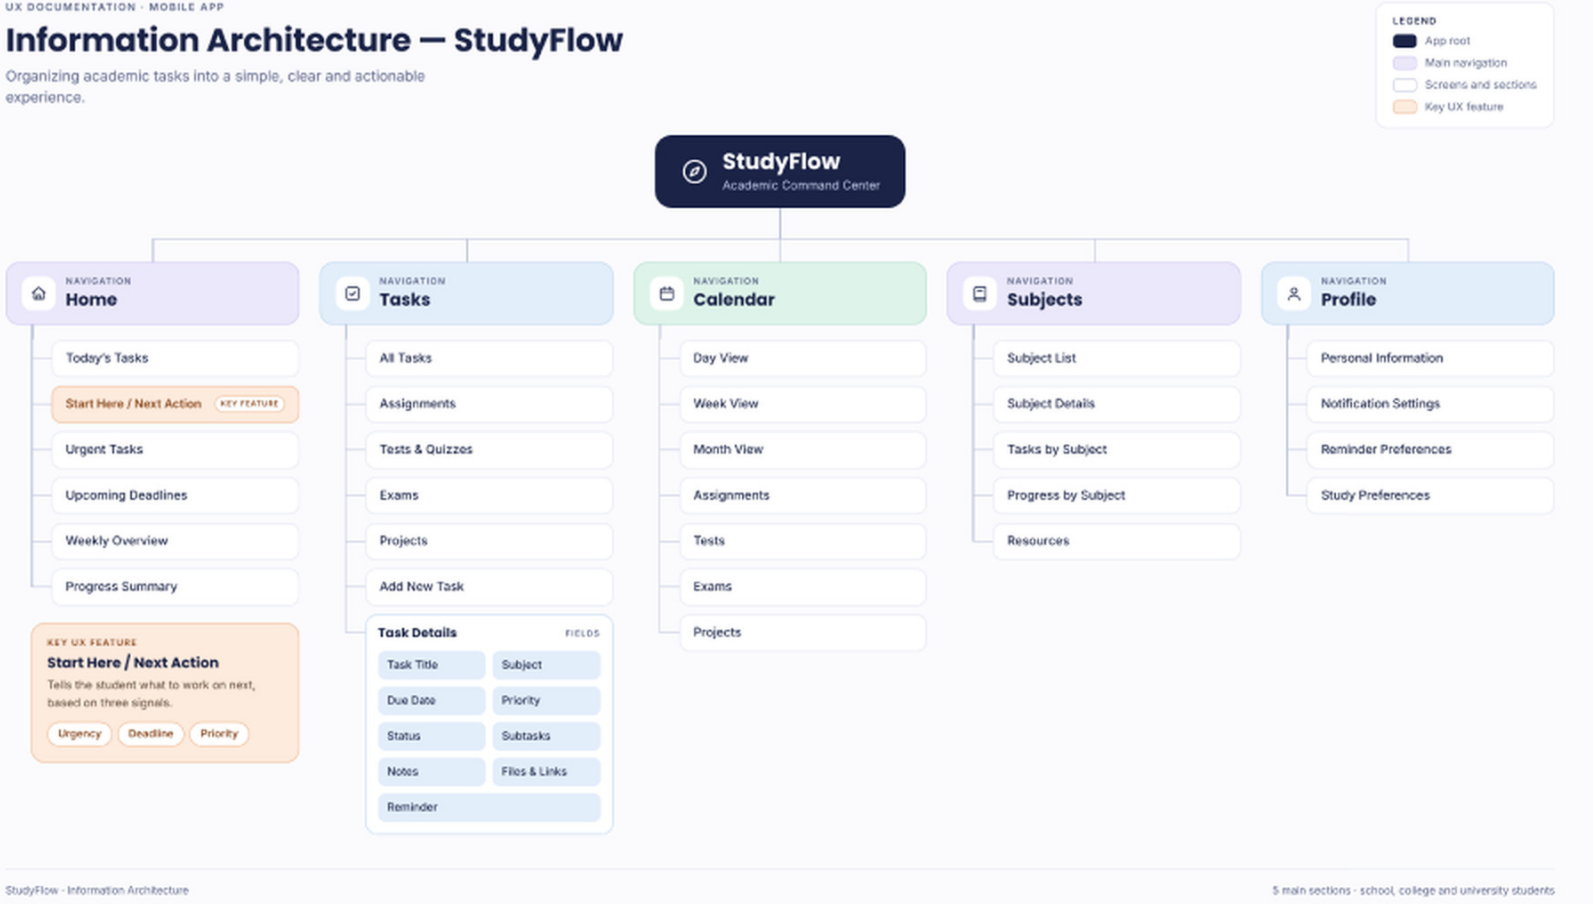

- WhatsApp groups check karti hai
- LMS/portal check karti hai
- Notes/Screenshots mein deadlines save karti hai
- Multiple tasks ko mentally remember karne ki koshish karti hai
- Deadline ke qareeb assignment complete karti hai
- Different apps/platforms switch karti hai

FEELS

- Overwhelmed
- Confused
- Stressed
- Guilty when she procrastinates
- Relieved after completing a task
- Motivated when her work is organized

TAKEAWAY She feels overwhelmed when work is scattered and motivated when it is organised, which is what StudyFlow is built for.

Information Architecture

FIVE MAIN SECTIONS

- Home
- Tasks
- Calendar
- Subjects
- Profile

TASK DETAILS FIELDS

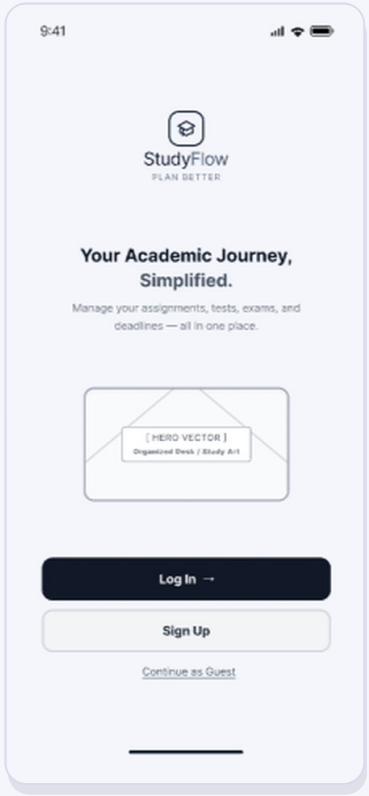

Title, Subject, Due Date, Priority, Status, Subtasks, Notes, Files & Links, Reminder

Wireframes • 1 of 2

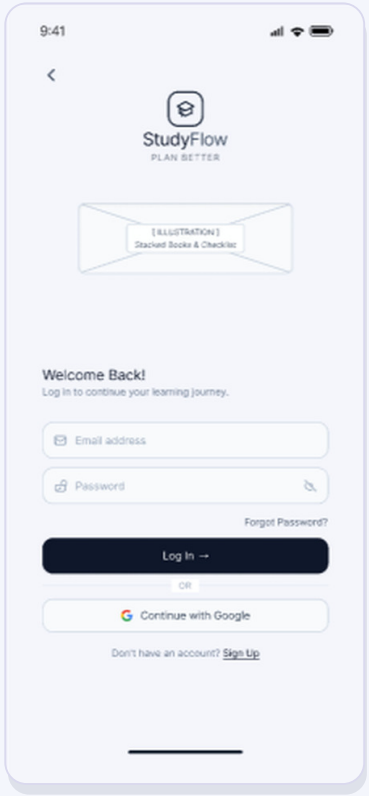

Low-fidelity layouts define structure and hierarchy before visual design.

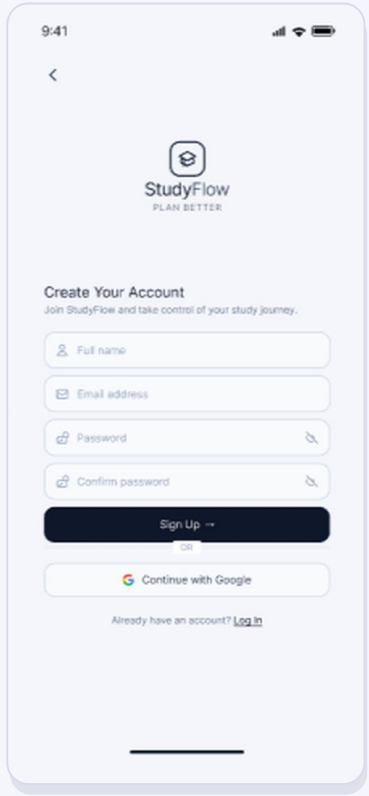

Splash

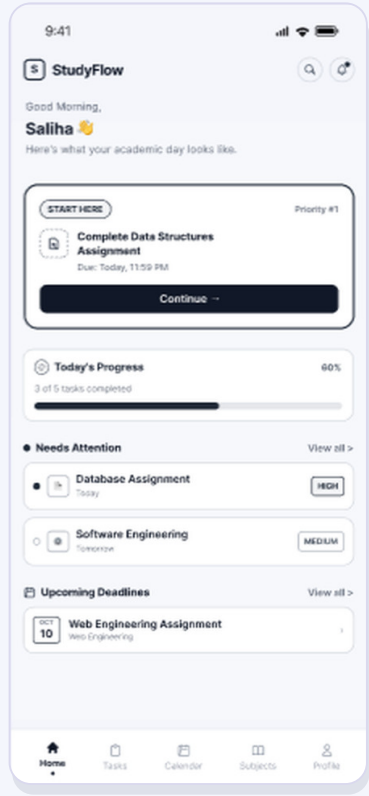

Welcome

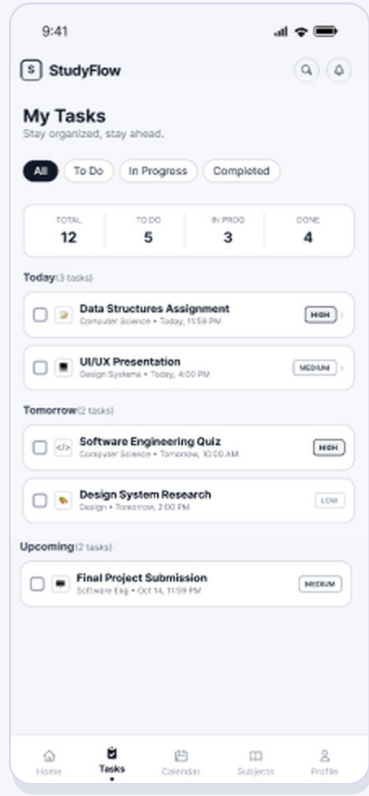

Login

Sign Up

Home

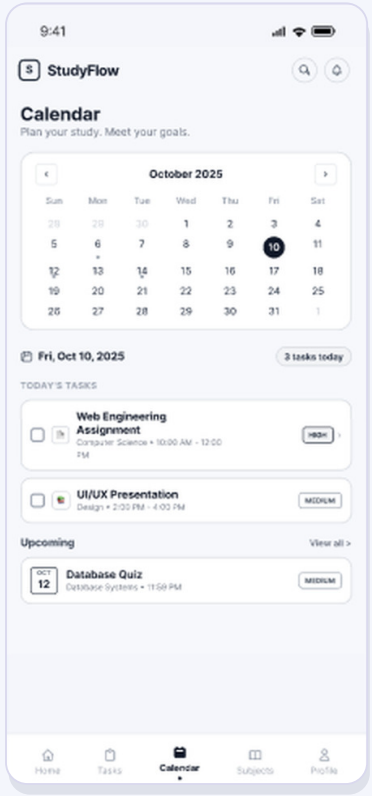

Tasks

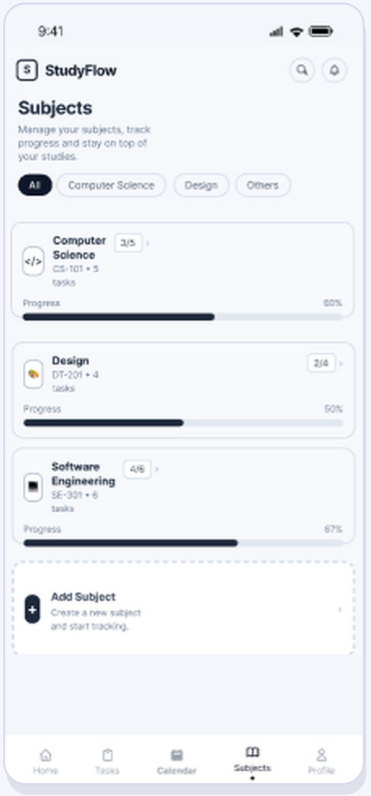

NOTE Placeholder boxes stand in for illustrations so the focus stays on layout, navigation and content order.

Wireframes • 2 of 2

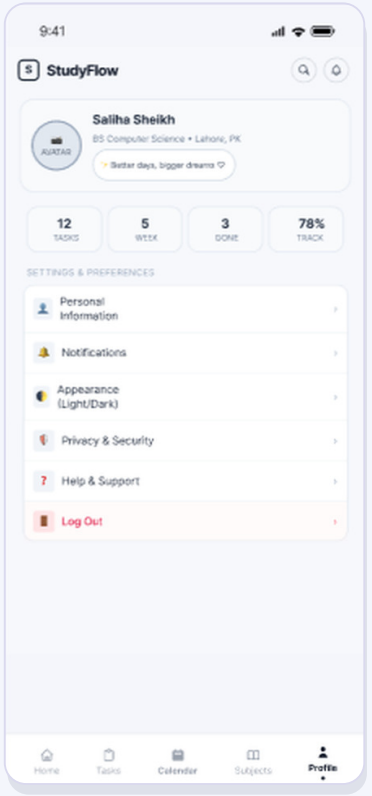

Core screens: calendar, subjects, profile, task details, add task and progress.

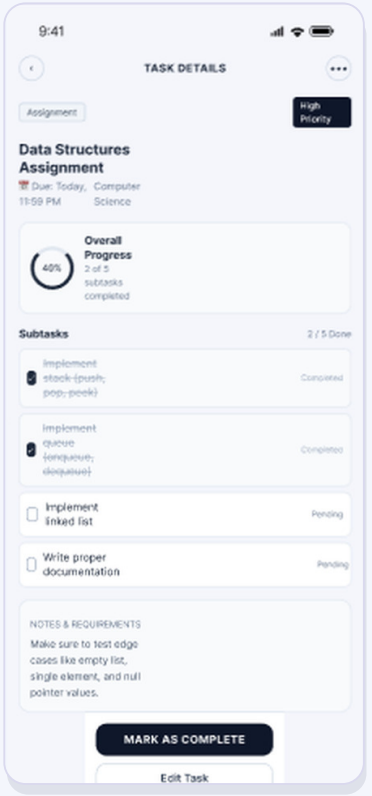

Calendar

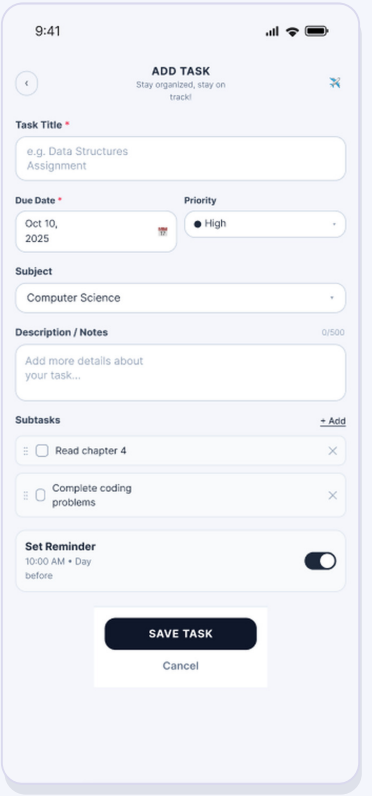

Subjects

Profile

Task Details

Add Task

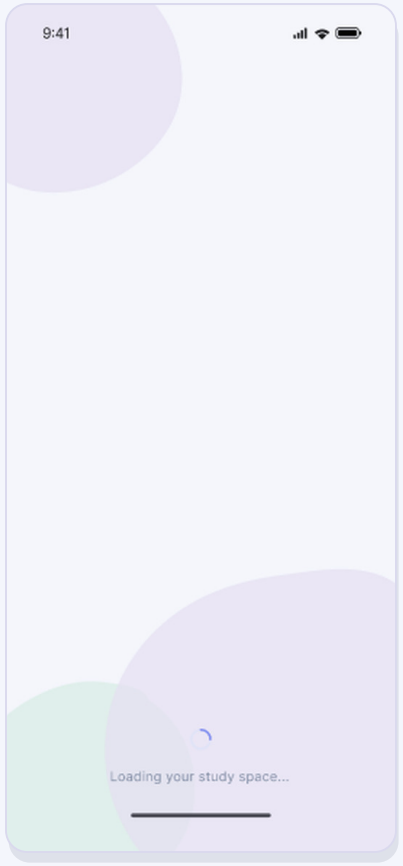

Progress

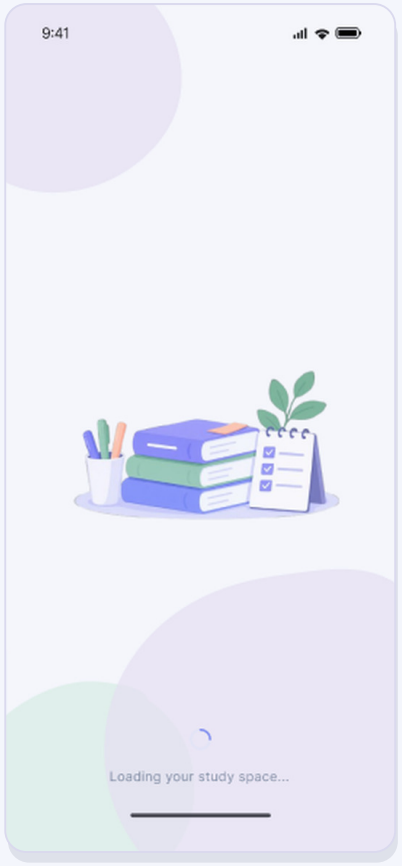

NOTE The bottom navigation (Home, Tasks, Calendar, Subjects, Profile) stays consistent across the main screens.

Splash & Welcome

A calm loading sequence that introduces the brand and invites the student in.

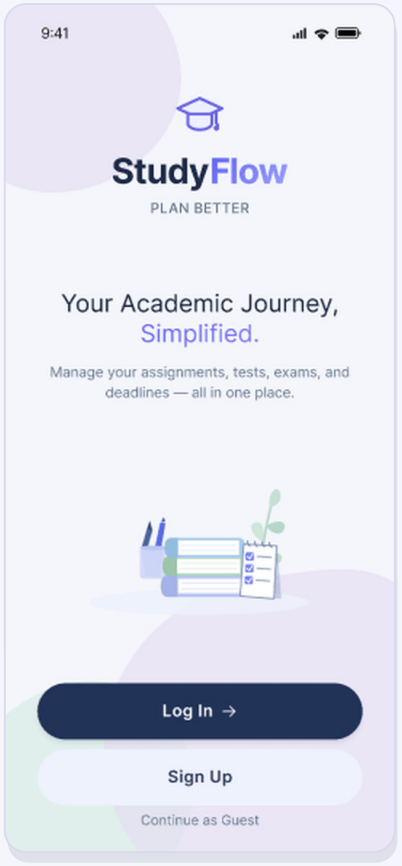

Loading

Illustration

Brand reveal

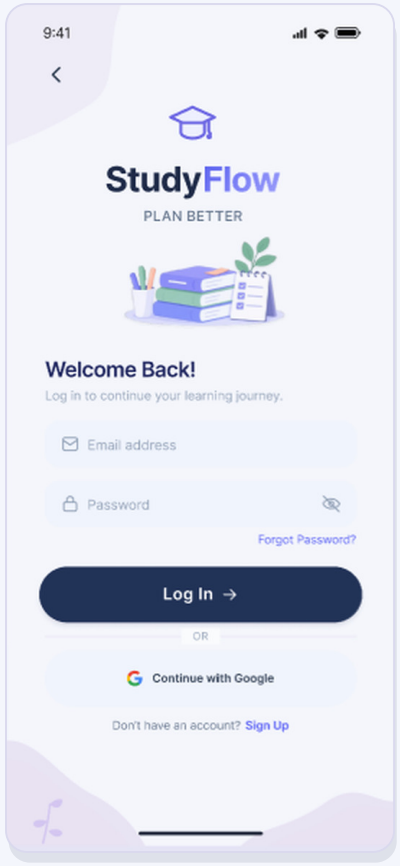

Welcome

SCREEN NOTES

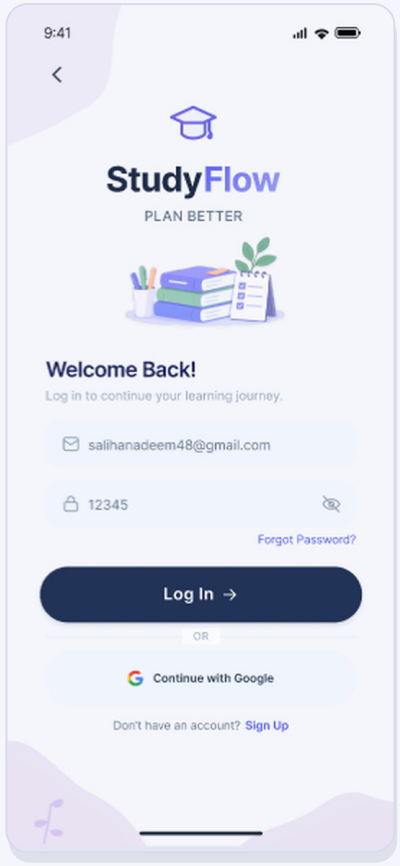

- **Loading.** Soft shapes and a "Loading your study space…" message.
- **Illustration.** Books, plant and checklist set a friendly study mood.
- **Brand.** StudyFlow — Plan Better appears with the logo mark.
- **Welcome.** "Your Academic Journey, Simplified." with Log In, Sign Up and Continue as Guest.

Login & Sign Up

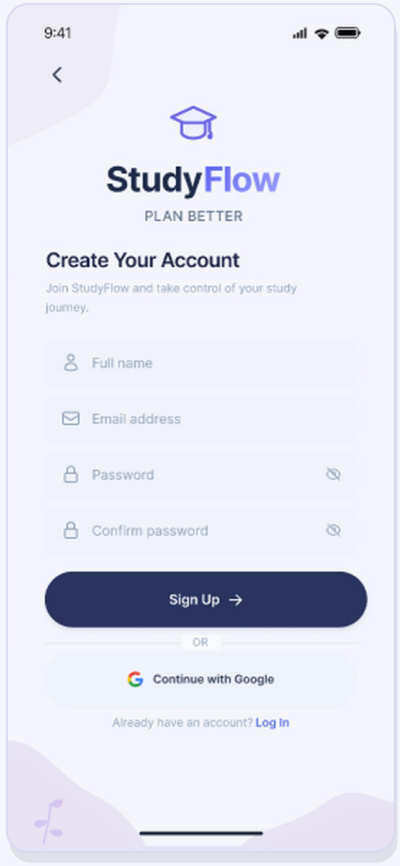

Simple, low-friction forms, shown in empty and filled states.

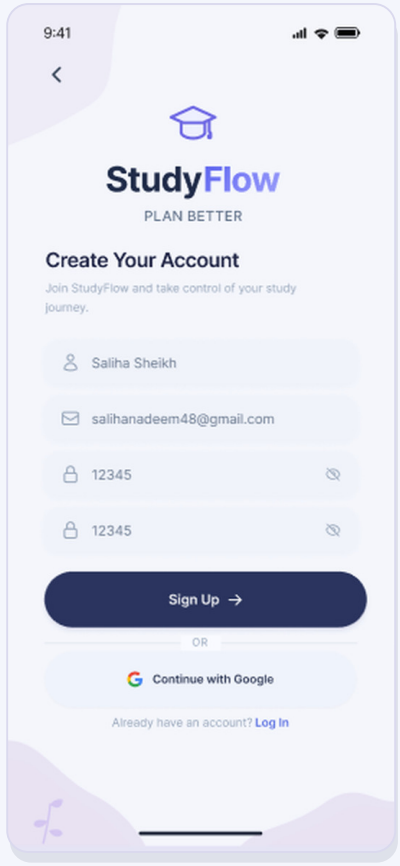

Login

Login (filled)

Sign Up

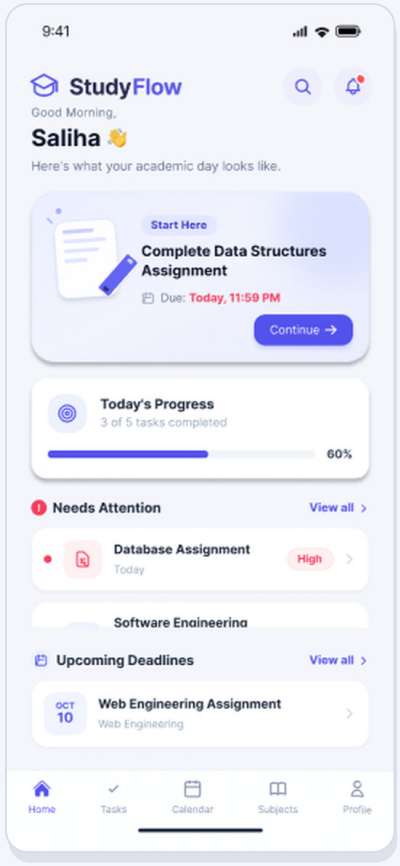

Sign Up (filled)

SCREEN NOTES

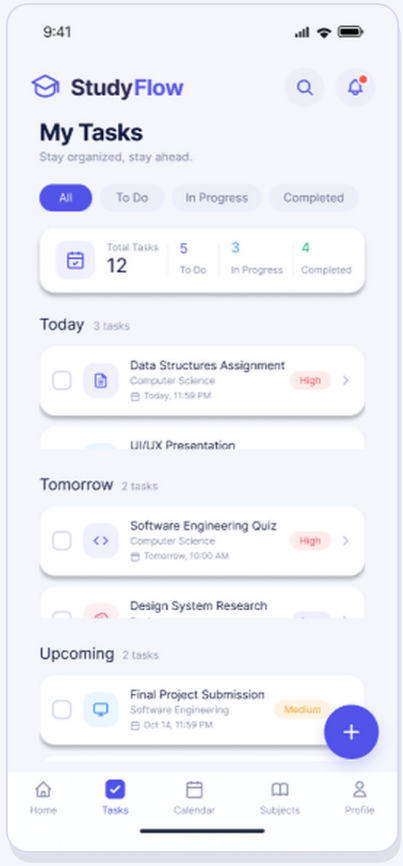

- **Login.** Email and password with a Forgot Password link.
- **Sign Up.** Full name, email, password and confirm password.
- **Google.** "Continue with Google" is offered on both screens.
- **Switching.** Quick links move between Log In and Sign Up.

Core Screens

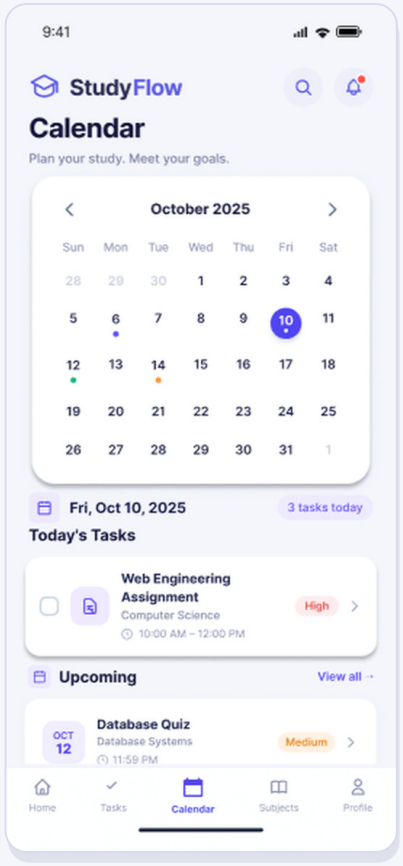

The four main tabs students use every day.

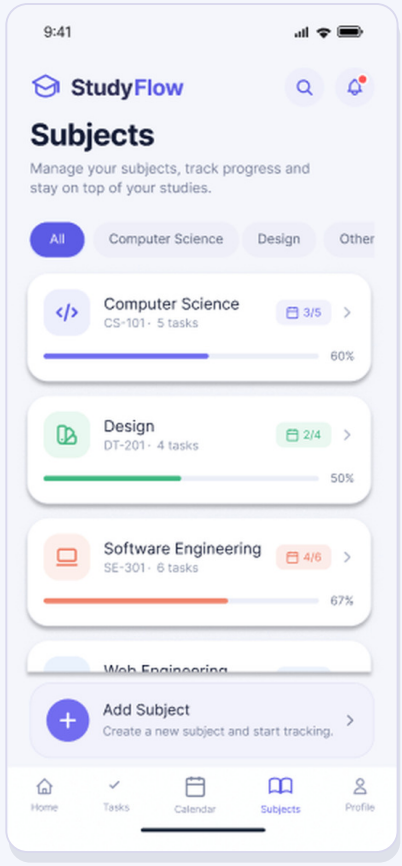

Home

Tasks

Calendar

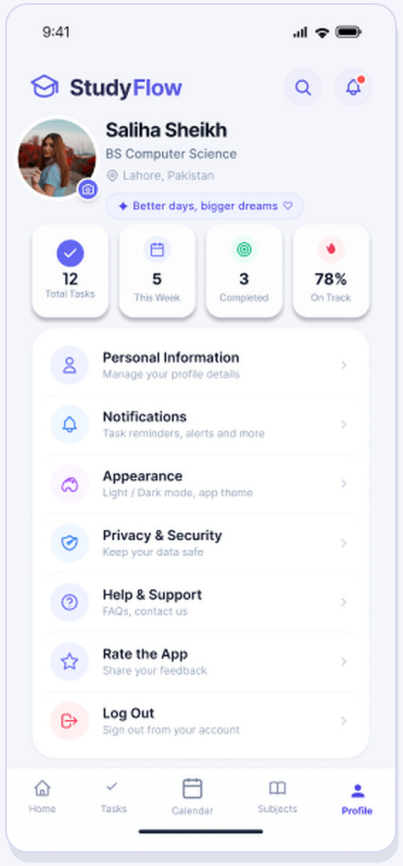

Subjects

SCREEN NOTES

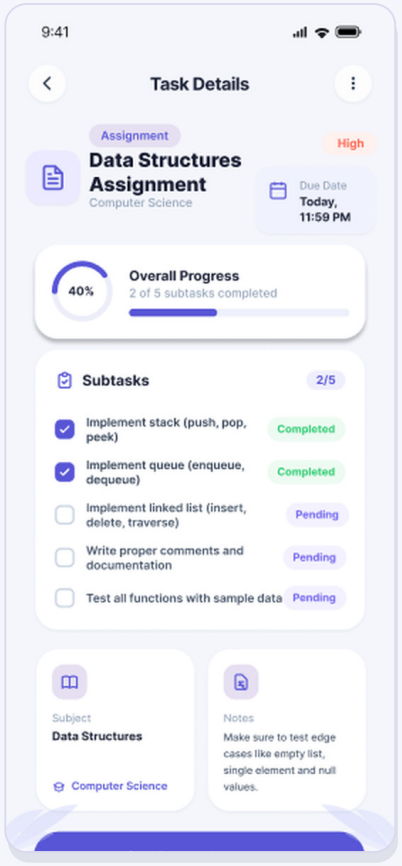

- **Home.** Greeting, Start Here card, today's progress, needs attention and upcoming deadlines.
- **Tasks.** Filters for All, To Do, In Progress and Completed, grouped by Today, Tomorrow and Upcoming.
- **Calendar.** Month view with today's tasks and upcoming items below.
- **Subjects.** Colour-coded subject cards with progress and an Add Subject option.

Profile, Tasks & Progress

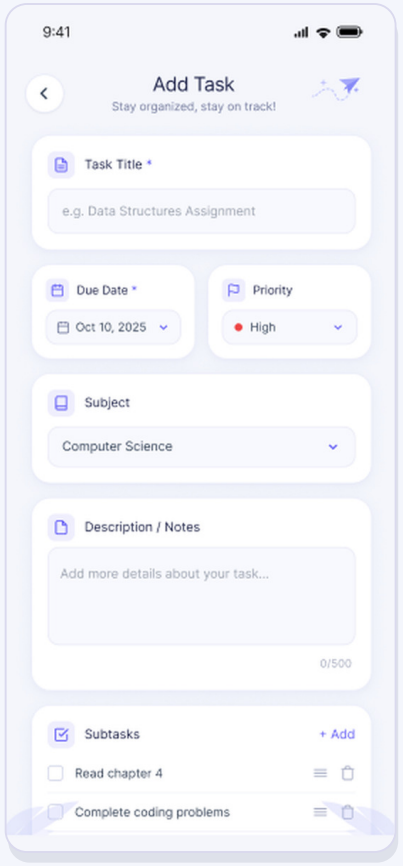

Detail, creation and tracking screens.

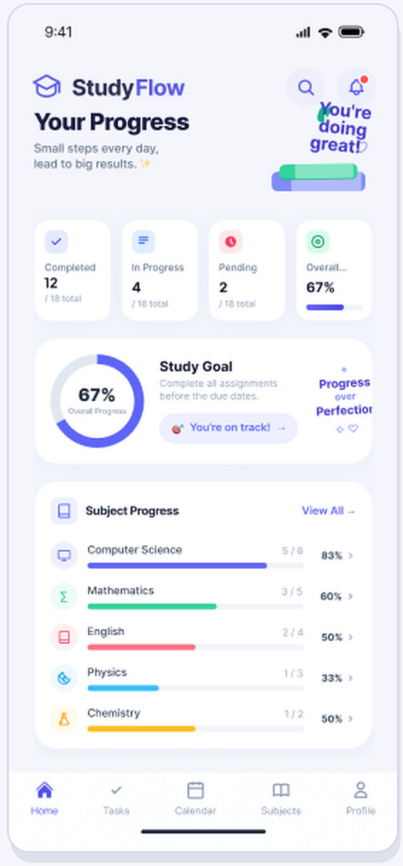

Profile

Task Details

Add Task

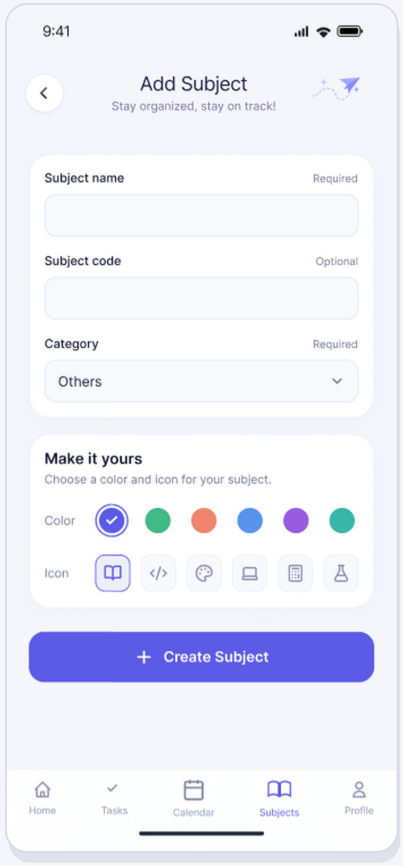

Progress

SCREEN NOTES

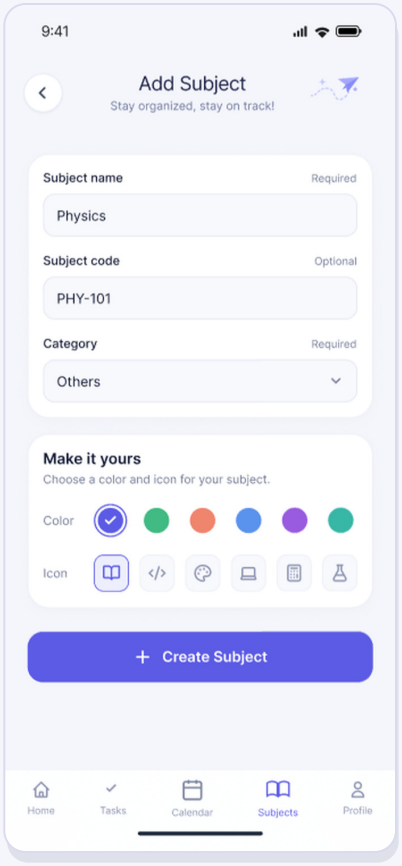

- **Profile.** Student summary, quick stats and settings such as notifications and appearance.
- **Task Details.** Subtasks with status, overall progress, subject and notes.
- **Add Task.** Title, due date, priority, subject, notes and subtasks.
- **Progress.** Completed, in progress and pending counts, study goal and subject progress.

Add Subject

A short form that lets students personalise each subject.

Empty

Filled

FORM FIELDS

- **Subject name.** Required.
- **Subject code.** Optional, for example PHY-101.
- **Category.** Required, chosen from a dropdown.
- **Make it yours.** Pick a colour and an icon for the subject.
- **Create Subject.** A single clear call-to-action button.
- **Why it matters.** Each subject's colour and icon make it easy to recognise across the app.

Visual Style

A calm indigo and lavender palette with soft, rounded components.

Deep Navy
#1B2447
Dark surfaces, headings

Indigo
#5C5BE5
Buttons and active states

Lavender
#E5E4F5
Soft backgrounds

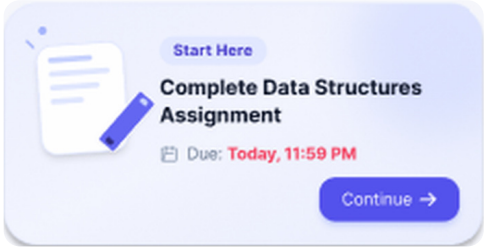

Screen White
#F4F6FC
App screen background

Mint Green
#41BA83
Success and progress

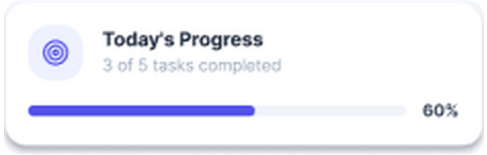

Coral
#F0856D
Subject and alert accents

Colours were sampled from the final UI designs.

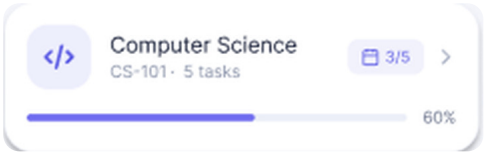

UI COMPONENTS

Start Here card

Progress card

Subject card

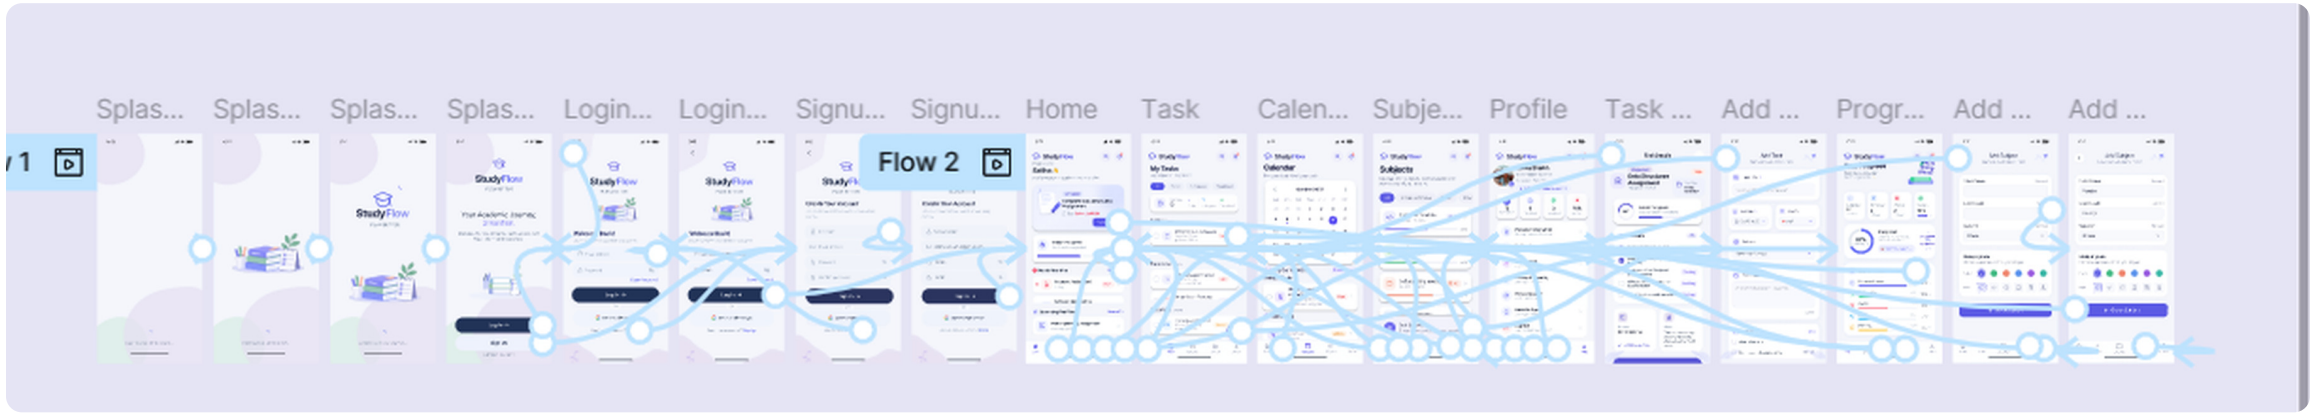

Bottom navigation

Rounded cards • pill buttons • clean sans-serif UI text • colour-coded subjects

Prototype Flow

Screens are linked in Figma so the app can be experienced end to end.

Flow 1

Starts at the splash screens and continues through Welcome, Login and Sign Up.

Flow 2

Starts at Home and connects Tasks, Calendar, Subjects, Profile, Task Details, Add Task, Progress and Add Subject.

Connections between screens can be viewed in the Figma prototype.

Design Outcome

From understanding the student to a connected, working prototype.

01
Research

User persona and empathy map capture what students struggle with.

02
Structure

Information architecture organises the app into five main sections.

03
Wireframes

Low-fidelity layouts settle hierarchy and navigation first.

04
UI Design

High-fidelity screens in a consistent indigo and lavender style.

05
Prototype

Linked flows let the app be experienced end to end.

OUTCOME

StudyFlow turns scattered academic tasks into one clear, actionable mobile experience that shows students what is pending, what is urgent and what to do next.
